PROJECTS

- **Customized Food Ordering System**
 - The food ordering system for royal food corner. I did this system for my programming assignment. Royal Food Corner is a very famous food corner in Jaffna. They have a huge number of customers daily. Manual system is difficult to manage so they have a computerized system.
- **Network System for Partner PVT Ltd**
 - Prepared a network architectural design for partner pvt lt for my assignment task
- **Hospital Management System**
 - Hospital management system for ABC Virtual. This project is my Website Design and Development module assignment. HTML, CSS, JavaScript, PHP based project
